

Hi Everyone! We hope you had a chance to enjoy the great weather over the weekend! The following is a list of how you can earn points this week on an assessment, Zoom meeting and through an extra credit opportunity.

Wed. 5/6 **CL assessment** (1/2 credit on retries): to be **completed before 9 PM on Saturday** .

Wed. 5/6 **Zoom meeting: earn up to 10 points**

\* **8 points** for attending the full time period

\* **up to 2 more points** for asking or answering questions during the meeting

Fri. 5/8 **Extra Credit Opportunity**

Look outside (keep appropriate social distancing) try to find a parabola in the real world. Take a picture of it with you iand send to Google Classroom. Please include information about a quadratic function that you see.

Explain: what the real life representation is

what  $a$  value it has and how you know

if the turning point is a maximum or minimum

the end behavior of your function

Your regular assignments for the week:

Mon 5/4 15-7 Video/Lesson and Notes

Wed 5/6 Unit 16-1 Video/Lesson and Notes

Wed 5/6 Zoom #7 Review for CL Unit 15 Assessment
