

ALGEBRA DL WEEK OF 4/27 – 5/1

Hi Everyone! Hope all is well. This week there are video lessons posted for Monday and Wednesday. Each video lesson is posted in two parts, please be sure to watch both. After you have watched the videos and completed the notes take a few minutes to review and then complete the Castle Learning homework assignment.

Remember the homework assignments are being checked for completion, but we will be posting the scores on the portal (not just a check for completed). The scores will not be included in your quarter 4 average, but we do ask that you try your best.

Some of you are behind with last week's assignments. Please complete DL-8 and DL-9 before moving on to the new lessons this week. You need to understand these lessons before you continue. If you need help with anything please reach out via Remind message or email.

Zoom meeting/class will be held for individual classes on Wednesday, April 29. Invitations will be sent out Tuesday afternoon.

Stay safe and well! Talk to you soon!
